LAMINATE
FLOORING

Give your surroundings a unique flair

Laminate enjoys a fantastic reputation as an absolute all-rounder. There is hardly an area or room that is not suitable for its installation. Whether children's rooms or living rooms, offices or shops, with or without pets – laminate flooring is a beautiful and uncomplicated partner thanks to its robustness and durability.

The list of advantages of laminate flooring is long – easy to clean and therefore hygienic, anti bacterial thanks to surface structures that bacteria cannot adhere to, light-resistant and hard-wearing. Last but not least, there is the range of decors and surfaces, that leave nothing to be desired.

Authenticity you can see and feel

Very close to the original – these are laminate decors, whose appearance is made up of two factors – image and surface.

Color and light form the symbiosis for a perfect reproduction of wood, stone and tiles. And the perfect optical representation is complemented by the tactile reproduction. Vision and touch, the interaction of the senses.
